Pakistan Hospitals In Need Appeal

Location: Pakistan, Regional

Start Year: 2011

Status: On – going

PLEASE DONATE KINDLY

Project Overview

The Crest Foundation Ltd actively seeks to deliver a beneficial health care treatment programme by establishing small hospitals or treatment centres and an emergency response ambulance service throughout Pakistan that would help to alleviate the suffering of the poor and needy. These hospitals or treatment centres would ensure free treatment is offered to everybody fitting the criteria of The Crest Foundation Ltd, people who are able to afford the service would be required to pay, this would help towards the operating costs of the hospital.

Project Background

Pakistan is the 6th largest state of the world having a huge flux of population living in rural and urban areas. The Federal Government of Pakistan after taking her due share from NFC award promise to fulfil the four major objectives i.e. security, education, health and sanitation. Unfortunately, only 1.5% of entire budget is allocated to health and sanitation which is insufficient. Secondly, the sanitary condition is deplorable and the stagnant water absorbs 150 feet in the soil mixing up with clean water, which is spreading severe diseases. Owing to this poor sanitary condition W.H.O projected the idea of oral polio vaccination.

Additionally, the number of doctors is less to tackle the problems of health. In Punjab only 1400 doctors qualify every year where as statistics show that every year 70,000 babies born in Punjab.

The infrastructure of Pakistan is undeveloped. The basic health units in rural areas are not medically inadequate or fully equipped enough to better the falling health of rural populace. If there are well equipped hospitals, the availability of doctors is not ensured. Glaringly, the quacks are performing in every nook and corner of the country without any fear of accountability. The medicine companies are indulging in minting money with the help of dishonest doctor, consequently killing many people. Less attention is given to sterilize the tools and transfer of blood without disease. Because of the religious myths and cultural barriers less attention is given to female health which results in the increment of MMR and TMR.

Apart from medical sector, the industrial sector is also adding fuel to the fire. They don't have any proper way of wasting the waste material of their industrial units. They are increasing the pollution without any single thought of health hazards. No measures have been taken to eradicate the problems of pollution or to deal with such industries.

The Crest Foundation Ltd

Objectives & Activities:

To improve the hospitalisation process of Pakistan by offering best treatment available to the people of Pakistan, Treatment would be free to the poor and needy subject to criteria of The Crest Foundation Ltd, those able to afford would be required to contribute (pay). We aim to work closely with the people of Pakistan and provide our full support:

- Hospital Development and Construction of Treatment centres
- Womens Hospital (separate units)
- Full Emergency Response Service
- Advanced Pre-Hospital Treatment
- Advanced Medical Equipment
- Medical Research & Development
- Free Treatment to the poor and needy subject to criteria
- Air ambulance facilities for emergency transfers
- Rehabilitation Units

PLEASE DONATE KINDLY

The establishment of these hospitals or treatment centres would be beneficial for the poor who have minimum or no access to healthcare, this would enable us to treat majority of the diseases and conduct medical research for diseases in future: for example:-

- Endocrine cancer, Brain Cancer and cancer in general
- Tuberculosis
- Cholera
- Orthopedic Disorders
- Mental Health
- Hepatitis
- AIDs & HIV
- Diabetes
- Endocrine System Disorders
- Rehabilitation Units
- Child Birth Related Diseases
- Meningitis
- Malaria
- Cataracts
- Air borne diseases and water borne diseases
- Etc...

PLEASE DONATE KINDLY

We aim to provide advanced health care standards through long term and expansion of medical research and development programmes. This would ensure future and progressive development in the following areas for example:-

- Economic Development
- Advanced Health Care System
- Medical Research and Development of the Health care System, with a view to progressive research in health treatment programmes.
- Improvement in Welfare & Housing
- Strengthens Community Relations

The Crest Foundation Ltd

- Education
- Employment
- Improvement in Lifestyles
- Clean Water & Energy
- Medicines

We aim to establish an emergency response ambulance service alongside the hospitals or health treatment centres.

This would help ensure:-

- Increase efficiency in pre-hospital treatment
- Having better response work and improvement to health care and treatment
- Improving the countries emergency response work and healthcare system
- Better response facilities and more advanced equipment
- Disaster response work for faster transfer in pre-hospital treatment
- Assist in national emergency relief
- Faster response to the needy, where critical patients undergo not being seen by Accident & Emergency due to lack of transport or assistance
- Better and advanced equipment for treatment
